

## Full stack test task

- 1) Create responsive page that looks like on screenshots desktop and mobile  
<https://drive.google.com/file/d/1bsmsoRrKB6sZSAWfM2ofBM3MR2Noo318/view?usp=sharing>  
<https://drive.google.com/file/d/119fxJMIRq8W4kk12i4Ww15JaBwo-SAdB/view?usp=sharing>
- 2) On click "Play" button should save info about this action (user ip, date time, button id) to yyyy-mm-dd-click.log file and DB (mysql) without reloading page
- 3) You can use any images for background, logo etc.
- 4) For creating yyyy-mm-dd-click.log file use and saving data to DB use PHP
- 5) Every day should be created new yyyy-mm-dd-click.log file
